

IB Testimonial

DREW COBB, CLASS OF 2017
Current Freshman at DePauw University
Intended Major: English with a concentration in writing

“My IB experience (at Guerin Catholic) helped me to adapt to the workload and independence of college.

The study skills I learned from IB have helped me make the transition to college, and I feel that I have to credit my full-IB schedule in high school for my ability to stay on top of things. I believe it is important to continue to challenge myself in and out of the classroom, and I don't think I would be as ambitious and prepared to get out of my comfort zone had I not taken IB classes in high school. I advise students at Guerin

Catholic to take advantage of the school's resources, and to offer any anxieties and reservations they may have about challenging themselves up to God. I'm a firm believer that He wants us to always challenge ourselves.”
