

Host Family Opportunities

for International/Exchange Students (2019-20 school year)

As part of our mission statement, Guerin Catholic high school is committed to serving students from diverse backgrounds. We believe this commitment to diversity fulfills the greater mission of the universal Catholic Church, but also enriches our overall school environment for all students. One avenue for increasing diversity in our school is to welcome students from other countries who want to experience a Catholic High School setting in the United States.

For the 2019-2020 school year we have three opportunities to host an international or exchange student in your home. This is a great way to welcome a child from another country, learn about their culture, and build a friendship that will last for years to come. Hosting a student does not take anything special, just a warm welcoming spirit and the love you would give your own family.

Each of these opportunities is slightly unique, but all are excellent to enrich your family and the school environment. Please consider whether you are called to host an international student.

If you are interested in hosting an international student, please contact Principal James McNeany at (317) 582.0120 or jmcneany@guerincatholic.org, or the contact listed below with any questions.

► International Students

Students will study in the United States with potential to earn a high school diploma from the US. Students may come from any part of the world, but most will be from Asia.

Length of Stay: Students commit to study for one school year.

Host Family Stipend: \$600 monthly
