Favorite Guerin Catholic Teacher(s)

My favorite teacher was Mr. Ross because his class was very action-oriented. He really got me interested in physics and engineering through all the class activities and projects we did.

What I will miss most about Guerin Catholic

I will miss the community. Guerin Catholic is a relatively small high school where you can make good connections with almost everyone in your class. I will miss those connections that I have created throughout my time at Guerin Catholic.
