Favorite Guerin Catholic Teacher(s)

I have so many, but my favorite is probably Mr. Ross. Mr. Ross has a unique ability to share his passion for physics and does an excellent job teaching. He always prioritizes prayer and the success of the student. He also manages to teach calculus level math to juniors who have not been familiarized with derivatives or integrals.

What I will miss most about Guerin Catholic

I will miss the friends that I have made and the care that the teachers have for the students. I have made many friendships at Guerin Catholic thanks to the community that I hope continue through the rest of my life.
